

10MW Australian Mobile Energy Storage Container for Campsites

Overview

It's a fully engineered, trailer-mounted stand-alone power system that brings reliable, clean, and scalable electricity to the most demanding off-grid environments across Australia. Power where the grid can't go — delivered in a single, rugged container. MyEnergy designs and builds turnkey off-grid systems inside 10-, 20- or 40-foot containers, pre-wired, factory-tested and ready to run the moment they land on site. Australian-made, on-grid and off-grid energy storage solutions that store solar power and can make you income through your very own Private Power Plant. Looking for a portable power shipping container solution that delivers reliable, mobile energy when and where you need it?

At SCS Australia, we supply modified shipping containers that are fully equipped with power generation and storage systems, making them ideal for construction sites, events. At Apex Energy Australia, we offer state-of-the-art Battery Energy Storage Systems (BESS) tailored to meet diverse energy needs. Our solutions range from bespoke designs to pre-packaged high-voltage (HV) systems sourced from trusted international partners, ensuring optimal performance for large.
