

2 0 Wind turbine power generation

Overview

After the massive success of the original Shine Turbine, which sold out in just five days, the team at Aurea Technologies is back with Shine 2. 0—a more powerful, efficient, and versatile wind turbine designed to provide off-grid energy 24/7. Compact with USB-C fast charging for power stations, phones, laptops & more. YouTube offers an abundance of tutorials for building your. Meet Shine 2. 0 keeps your 12-volt devices powered even when it's rainy, cloudy, or foggy. 0 is about expanding. Shine's compact turbine isn't going to power your house any time soon (though Rachel Carr, the company's co-founder told me they have plans in that direction) but it can suck up the energy required to refill a smartphone in as little as 17 minutes. 0 TODAY! 639 backers pledged CA\$ 427,640 to help bring this project to life.

2 0 Wind turbine power generation

[Water Bottle-Sized Wind Turbine Provides Power Anywhere](#)

"Unlike solar, it can generate power day or night, rain or shine, making it especially effective in coastal, mountainous, and open landscapes where wind is more consistent."

[This portable wind turbine can charge your phone with just a breeze](#)

The Shine 2.0 generates power in wind speeds ranging from eight to 28mph, and at max speed, it can produce up to 50W of power, which is enough to fully charge a laptop in about two hours.
