

# 315 Solar Photovoltaic Panel Specifications

## Overview

---

A 315 watt solar panel produces 315 watts of power under Standard Test Conditions (STC), which include 1000 watts per square meter of solar irradiance, 25°C cell temperature, and 1. Refurbished 315W panels offer exceptional value at \$0.57 per watt - representing 50-70% cost savings compared to new panels while maintaining proven performance, making them ideal for budget-conscious installations with adequate space. 315W panels require 25-30% more roof space than modern. SunPower™ Solar Panels are the most efficient photovoltaic panels on the market today. The product can increase the value of a property with its 25-year warranty. Great reliability, impressive efficiency and aesthetics make it an optimal choice for commercial and residential. Fully-automated production lines and seamless monitoring of the process and material ensure the quality that the company sets as its benchmark for its sites worldwide. Plus-Sorting guarantees highest system efficiency. SolarWorld only delivers modules that have greater than or equal to the.
