This isn't just a battery; it's a fully integrated power fortress, combining a massive 120kWh LiFePO4 battery bank, a powerful 50kW inverter, and a sophisticated thermal management system within a single, ruggedized outdoor cabinet. Designed for peak shaving, backup power, and solar. A single communications gateway protects the system from unauthorized access, maximizing cybersecurity. Together, they help drive down energy costs by automatically and constantly optimizing site energy production and battery performance. Equipped with a reliable Growatt inverter, it supports flexible battery options including rack-mount and stackable batteries.
