

# 540 Single-pile photovoltaic support

## Overview

---

With a rated voltage of 41.05A, this panel is designed to deliver reliable power for your home or business. Bifacial Half-Cut Module: Advanced processing techniques realize great module efficiency to a maximum of 21. These solar modules are equipped with a state-of-the-art 144-cell configuration, 10BB technology, and Mono PERC cells, ensuring maximum sunlight absorption and. The TALESUN TP7G72M is a high-quality bifacial single glass solar module with a maximum power output of 540 watts that delivers exceptional performance and durability for commercial solar systems. With 300 / 1200mm cable. Bifacial Technology Advantage: The LONGi 540W's bifacial design can increase energy yield by up to 30% compared to traditional monofacial panels, making it particularly valuable for ground-mount installations with reflective surfaces like white gravel or concrete. Superior Degradation Resistance: Take control of your energy costs with our high-efficiency 540W monocrystalline solar panel. Of Cells Experience the assurance with Livguard's solar panel system that consistently captures full energy.
