

60W solar all-in-one machine parameters

Overview

This manual contains all safety, installation and operating instructions for the HF Series all-in-one solar charge inverter. Non-safety voltage exists inside the. When using the panel with your devices, please make sure the maximum output parameters¹ of the panel are within the input range of the devices. Otherwise, your devices may be damaged. High module conversion efficiency (up to 15.44 %), through innovative manufacturing technology. Advanced glass and solar cell surface texturing allow for excellent performance in low-light. In the non-set up mode, the alarm or fault code is displayed. Supports a wide range of battery technology: GEL, AGM, Flooded, LFP, and program. under-voltage and over-voltage protection and reverse polarity protection.

To connect the panel with a third-party device, please make sure that the device allows solar input, and that its output ports and electrical parameters meet the panel's requirements.

Microsoft Word

After the module is selected, you can connect the all-in-one solar charge inverter through the mobile phone Bluetooth APP, on which you can view the operating parameters and status of the device.
