

A-share company producing solar inverters

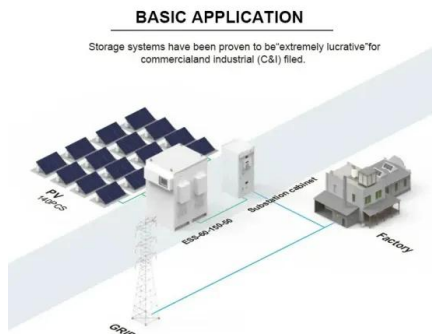

Overview

Huawei and Sungrow ranked as the top two global solar inverter manufacturers for the first half of 2025, with scores of 93. Inverters play a critical role in converting direct current (DC) into alternating current (AC), making them essential components in solar photovoltaic systems, uninterruptible power supplies (UPS), electric vehicles (EVs), and various industrial and residential applications. Companies in this field create solar inverters, power management systems, and energy storage solutions, catering to residential. With the rapid growth of the solar market, many leading companies are innovating and shaping the future of solar technology.

A. Companies involved in Inverter production, a key component of solar systems.
