

ASEAN local solar module prices

Overview

This article analyzes photovoltaic panel price trends in the region while exploring key factors shaping market dynamics – perfect for solar project developers, energy consultants, and procurement managers seeking data-driven decisions. Photovoltaic panel prices in Southeast Asia have shown a 12%. The first 2025 edition of the Southeast Asia Solar Supply Chain Map includes significant revisions and additions, driven by valuable market feedback and the region's evolving geopolitical and industrial dynamics. Thanks to new data, this edition includes entries such as ICA Solar and United. Direct PPA (DPPA) program: The new PDP 8 emphasizes the need for regulations for the pending DPPA program. In August 2023, the Ministry of Industry and Trade (MOIT) submitted a report to the Prime Minister with two options for the DPPA program, the first option without going through Vietnam. Weekly spot price report for 182mm modules will be based on the 182*182-210mm format from June 2024 onwards due to the slim price gap among varying formats. Prices for Chinese project will be prices for TOPCon modules instead of PERC from April 2024 onwards.
