

Australia s largest energy storage project

Overview

The Waratah Super Battery in New South Wales is Australia's largest energy storage system, with a capacity of 350 MW/700 MWh, expanding to 850 MW/1,680 MWh by 2025. Octopus Australia has acquired two battery storage projects from Enervest and Samsung C&T Renewable Energy Australia. The project, now complete, marks a major milestone in the state's transition from coal-fired power to renewable energy. The New South Wales government has awarded contracts to six new. This marks the second-highest quarterly investment on record, delivering an additional 1. Credit: Phonlamai Photo / Shutterstock.
