

Australian off-grid energy storage cabinet manufacturer

Overview

Australian-made, on-grid and off-grid energy storage solutions that store solar power and can make you income through your very own Private Power Plant. Assembled and tested in Brisbane, Australia. Did you know that your rooftop can generate up to three times more solar. Saltwater Solar provides complete off-grid power system cabinets containing batteries and all enabling equipment for continuous electricity supply to remote area homes, businesses and remote communities. Features Meets all Australian Standards for Remote Area Solar Systems, including the stringent. Red Earth can provide a wide range of energy storage solutions for many applications. We have a deep understanding of the energy market and the products we selected, are fully engineered using only high-quality components. Rather than loading up parts and hoping it all comes together onsite, we've refined the process.
