

Bangladesh solar panel assembly factory

Overview

This article explores the practical and financial feasibility of establishing a small-scale solar module production line in Bangladesh, a venture that aligns directly with the nation's evolving energy needs. Bangladesh's "Smart Bangladesh" vision for 2041 sets an ambitious goal: sourcing 40% of its energy from clean sources. Yet, a fundamental challenge stands in the way. The country currently imports approximately 95% of its solar modules —a gap between national ambition and local manufacturing that. SEPC is a prominent manufacturer and service provider in Bangladesh's solar energy sector, focusing on comprehensive solutions for renewable energy projects. It's a long-term solution, a green goldmine, and a patriotic act — all at once. The company formed Sonnex Energie. With over 2 GW of solar module manufacturing capacity in Germany, Sonnex Energie is now eyeing the cost-effective market of Bangladesh for a 500 MW module plant.
