RPS supplies the shipping container, solar, inverter, GEL or LiFePo battery bank, panel mounting, fully framed windows, insulation, door, exterior + interior paint, flooring, overhead lighting, mini-split + more customizations! RPS can customize the Barebones and Move-In Ready options to any design. MOBIPOWER containers are purpose-built for projects where energy demands go beyond what a trailer can deliver. These rugged, self-contained systems integrate large solar arrays, advanced battery storage, and high-capacity fuel cells — with optional diesel redundancy when regulatory or client. A solar-powered container can run lighting, sound systems, medical equipment or communications gear without waiting for grid hookups. Off-grid living and clinics: Even homes and clinics have been built from shipping containers. Case studies show a 40-foot container home powered entirely by solar. In an era where sustainable energy solutions are increasingly vital, solar containers have emerged as innovative and practical options for harnessing solar power on the go. Comprising solar panels, batteries, inverters, and monitoring systems, these containers offer a self-sustaining power solution.
