

# Buoy recommended outdoor solar power hub

Single group (5 KWH)

Wall mounting display

Stack installation display

Cabinet and rack installation display

## Overview

---

For buoy applications we can supply a solar power supply system to feed for example the automatic release system, navigation aid, AIS Transmitter or work light. The system is designed for the hardest weather conditions like heavy wind and sea spray and has a long lifetime. Price and other details may vary based on product size and color. This product has sustainability features recognized by trusted certifications. Recycled Claim Standard (RCS Blended) certified products contain recycled content (>50%) that has been. When traditional power solutions using cables or fuel-powered generators aren't feasible, our autonomous, eco-friendly solar power systems offer the perfect alternative. D Ring Pad on buoy bottom and Screws are made of Marine Grade Stainless Steel to protect against. The solar buoy utilizes solar energy as its power source, eliminating the need for conventional batteries, resulting in minimal maintenance and long-lasting durability. Whether it's marking off swimming areas or guiding boats safely, our solar buoy has got you covered. Integrated data well for a wide range of data loggers and telemetry units.
