

Can photovoltaic panels ward off evil

Overview

Claims that solar panels cause cancer or other health problems are unfounded and not supported by scientific research. What I found was a significant increase in rf radiation (from hundreds to thousands of times higher) inside solar homes, with no other possible sources. It made me feel dizzy, nauseated, head-achy, and disoriented (with “brain. Solar panels undergo rigorous testing to meet international safety standards before they ever reach the market. These tests include exposure to extreme temperatures, electrical surges, and physical impacts to ensure they can withstand various conditions without becoming hazardous. Additionally. There are a variety of remedies available to protect a person from demons, curses or evil spirits and energies. If this sounds familiar, an evil spirit might have taken up residence around your home.
