

Clean electricity tunisia

Overview

This five-year program of US\$430 million — including US\$30 million in concessional financing from the Climate Investment Funds — aims to support the Government of Tunisia to deliver a sustainable, reliable, and affordable electricity supply by accelerating renewable energy. This five-year program of US\$430 million — including US\$30 million in concessional financing from the Climate Investment Funds — aims to support the Government of Tunisia to deliver a sustainable, reliable, and affordable electricity supply by accelerating renewable energy. TUNIS, Novem— The World Bank and the Government of Tunisia have concluded a financing agreement to support Tunisia's energy sector modernization agenda through the Tunisia Energy Reliability, Efficiency, and Governance Improvement Program (TEREG). This five-year program of US\$430. The European Union (EU) is strengthening its support for Tunisia's energy transition with €35. 8 million in grant financing provided under the Neighbourhood Investment Platform (NIP), to accelerate the development of renewable energy generation and electricity infrastructure in the country. In 2024, the energy dependency rate stood at 59%. Natural gas currently accounts for 94. In Tunisia, over 95% of electricity generation relies on gas, while all renewable sources—hydropower, solar, and wind—combined account for about 4% only (Figure 1). Contribution agreements of €20. 4. Tunisia has advanced its energy transition agenda with the award of new renewable energy concessions to major international developers, as part of its 1,700MW renewable energy tender programme aimed at reducing reliance on imported natural gas and increasing the share of renewables in its power mix.
