## Overview

---

The Kvosted energy park combines large-scale solar generation with a 200 MWh battery system in Denmark, enabling electricity storage, grid balancing and improved asset economics. The facility, which has been supplying power since December 2025, is Northern Europe's largest operational solar-plus-storage. European Energy has officially opened its Kvosted energy park in Denmark, a 101-MW photovoltaic (PV) park with 200 MWh of batteries touted as Northern Europe's largest combined solar-plus-storage site. The Kvosted solar-storage park in Denmark. Key outcomes: "Energy storage is our bridge between windy days and calm nights," says Lars Andersen, Danish Energy Agency.
