

# Does the energy storage cabinet battery have a branch factory for production

## Overview

---

Jacksonville, FL, United States [10 September 2024] – Saft, a subsidiary of TotalEnergies, has commissioned a new line at its Jacksonville factory in Florida to produce the lithium-ion (Li-ion) battery containers that form the heart of energy storage systems (ESS). In the realm of modern energy solutions, cabinet type energy storage battery factories play a crucial role in meeting the growing demands for sustainable power sources. These facilities are not just production hubs but also centers of innovation and environmental stewardship. Our state-of-the-art Energy Storage Battery Factory combines advanced technology, sustainable practices, and rigorous quality. Let's cut to the chase: if you're here, you're probably either a clean energy enthusiast, an industry buyer, or someone who just realized lithium-ion batteries don't grow on trees. Discover why businesses worldwide are adopting this.
