

Dustproof Server Rack Type

Overview

Server Racks that are protected from all four corners are called “enclosed frames. ” These are available with locks one or two locks on the front, back or both. NEMA 12 enclosures are constructed for indoor use and provide a degree of protection to internal equipment against circulating dust, falling dirt, lint, and fibers. Configurable from 4 to 43 RU in 20”, 25”, or 30” depths. These are manufactured from galvanized steel, aluminum or stainless steel material, making them the perfect layer of security. Our AI beta will help you find out quickly. Limited time offer, ends 01/25 Did You Find It?
