Overview

Greece approved nearly 3 GW of energy storage projects in 2023, funded by EU recovery money and national incentives, making it an emerging storage powerhouse. Investor confidence is rising as auctions now reward independent storage assets and the regulatory framework matures. HAAE is proud to announce the publication of the Greek Energy Market Report 2025, a comprehensive and valuable resource for energy professionals, policymakers, academics, researchers, and companies interested in the Greek energy sector. This year's report offers in-depth analysis across nine. In recent years, Greece has emerged as one of Europe's most dynamic and forward-looking energy markets, establishing itself as a premier destination for clean energy investment.
