

General contractor for large-scale energy storage projects

Overview

Experienced at all levels of BESS design, our engineers excel at both custom solutions and connecting multiple large-scale rechargeable lithium-ion battery stationary energy storage units, responding to project, site, and client requirements. As the world races toward net-zero emissions, Battery Energy Storage Systems (BESS) stand as the linchpin for integrating renewables into stable, resilient grids. Projections indicate that global BESS capacity will exceed 500 GWh by the end of 2025, fueled by surging demand for frequency. BEI Construction — providing experienced engineering, procurement, and construction (EPC) services. Our team of skilled engineers and project managers with expertise in civil, mechanical, electrical, and other specialty areas works together to ensure that all structural, architectural, and. Sundt's Stop the STCKY safety program recently won top honors in innovation from the AGC. With proven expertise, deep resources and full lifecycle.

General contractor for large-scale energy storage projects

[Utility-Scale Battery Energy Storage \(BESS\) - Baker Electric](#)

Baker Electric's Battery Energy Storage Group combines more than 85 years of electrical contracting expertise with over a decade of utility-scale BESS experience to deliver fully integrated, future-ready ...

[Energy Storage System Design & Engineering](#)

Experienced at all levels of BESS design, our engineers excel at both custom solutions and connecting multiple large-scale rechargeable lithium-ion battery stationary energy storage units, responding to ...

[Top 15 Global Renewable Energy Storage EPC Companies in 2025](#)

Drawing from the latest 2025 rankings by Solar Power World--adapted for BESS expertise based on hybrid solar-storage portfolios and project pipelines--this list spotlights the top 15 ...

[Energy Storage EPC General Contractors: Key Players in the Clean ...](#)

Think of a top-tier energy storage EPC general contractor as the James Bond of construction - licensed to handle engineering, procurement, and construction with a license to innovate.

Energy Storage

Our holistic expertise in building sustainable, utility-scale renewable infrastructure includes a clear understanding of the engineering, design and site specifications including permitting and ...

[Energy Storage , Renewables , Electric Power Generation , Services](#)

Our team has experience with a range of systems, including lithium-ion, flow battery, pumped hydro, compressed air, cryogenic or liquid air, thermal energy storage, hydrogen, and gravitational energy ...

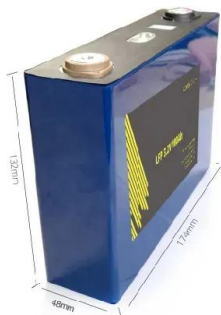

[Energy Storage & Battery System , BEI Construction](#)

BEI Construction has the engineering, electrical and implementation expertise required on energy storage construction projects (BESS) and can deliver battery-based energy storage as part of your ...

SOLV Energy , Home

SOLV Energy delivers the large-scale solar and battery storage projects that keep these industries powered -- on time and at massive scale. With proven expertise, deep resources and full lifecycle ...

[Energy Storage , Renewables , Electric Power Generation , Services](#)

Energy Storage Through A Direct-Hire Construction Lens Services from Project Start to Completion Experience with Battery Storage Demands As an integrated EPC firm, we go beyond detailed design and system coordination. We have extensive experience with high-voltage interconnection facilities and modular solutions that can solve for grid challenges. We are able to complete the environmental studies required to keep your project compliant with federal, state and local regulations. We w See more on burnsmcd
