

High-voltage discount photovoltaic integrated energy storage cabinet for oil platforms

Overview

This all-in-one cabinet features a modular design, allowing for flexible expansion and easy installation, operation, and maintenance. The unique oil immersion battery system ensures the safety of the batteries. With an IP54 and C4/C5 protection level, it is suitable for. This is a powerhouse of integrated energy technology, providing a complete energy storage and power conversion station in a single cabinet. Featuring 215kWh of LiFePO4 storage and a 120kW PCS, this system is engineered for industrial parks and commercial complexes that require high-power energy. The Cabinet offers flexible installation, built-in safety systems, intelligent control, and efficient operation. It features robust lithium iron phosphate (LiFePO4) batteries with scalable capacities, supporting on-grid and off-grid configurations for reliable energy storage solutions. It includes battery cells, Battery Management System (BMS), photovoltaic inverters, fire protection system, distribution system, thermal management system, and energy management system. Integrated BMS/PCS/EMS supports diverse applications.
