

How is the Spark Solar Panel

Overview

Solar panels absorb the sun's energy throughout the day and convert it into direct current (DC) electricity. Most homes and businesses run on alternating current (AC) electricity, so the DC electricity is then passed through an inverter to convert it to usable AC electricity. Our systems are easy and affordable and will help you grow in life and work, no matter where you live. The future of modular home systems. We promise the highest level of customer satisfaction, and we deliver on that promise. Every Solar Kit is part of a complete ecosystem consisting of the products, our PayGo integrated Spark portal and. Spark Solar specializes in residential and commercial solar, battery energy solar systems (BESS), gas and propane generators, EV charging stations and roofing services.
