

How to place photovoltaic panels on pallets

Overview

Panels from the First Solar Series 6 and 6+ lines should be placed on pallets with the glass side facing upward. Proper preparation is essential, ensuring that the pallet is sturdy enough to support the weight of the solar panels. Using a high-quality and durable pallet material will prevent. Please stack all modules on a sound pallet, in a manner which prevents a tip over hazard or shifting in transit. Whether you're a homeowner, a contractor, or someone looking to power up a solar farm, ordering solar panels in bulk comes with its own set of challenges. First, place a piece of cardboard on the panel. They help installers and warehouse teams safely store, move, and handle solar panels—from delivery and warehouse storage to. Scroll to the bottom of any page to find a sun or moon icon to turn dark mode on or off! I received some 235W panels for very cheap from a coworker who purchased a pallet of them from SanTan (had extras he needed to get rid of) and I wanted to mount them for as little cost as possible just to get.
