

# How to view photovoltaic panel information

## Overview

---

To effectively view solar panel data, one can utilize various tools and methods, including 1. After your system goes live, you'll start seeing real-time solar energy usage statistics via your app, including kilowatt-hours produced, energy sent to the grid, battery levels, and more. It's powerful information, once you understand it. This guide will help you make sense of the data, enabling. The U. Solar Photovoltaic Database (USPVDB) provides the locations and array boundaries of U. We use Google Earth imagery to analyze your roof shape and local weather patterns to create a personalized solar plan.
