

Icelandic container energy storage engineering company

Overview

Icelandic Tank Storage ehf is committed to providing world-class storage and logistics solutions for crude oil, petroleum, and petrochemical products. Strategically located in Iceland, we are positioned to serve international markets with efficiency, safety, and precision. To deliver secure. Discover how Reykjavik's innovative energy storage solutions are reshaping renewable energy systems worldwide. On 28 June 2022, we broke ground on Climeworks' second and newest commercial direct air capture and storage plant Mammoth in Iceland. Only 18 months later, the infrastructure of the plant has been successfully. The 8th of September marked a monumental milestone in our company history, launching Orca, the world's first large-scale direct air capture + storage plant with our Icelandic partner This encompasses tasks such as engineering and providing support for permitting and regulatory compliance.
