

Information on the sale of old photovoltaic panels

Overview

Find out how solar panels are recycled and where to take your end-of-life solar panels for recycling. According to the International Renewable Energy Agency. Large solar farms often replace older panels with the latest technology, putting the used ones up for sale. Used solar panels generally cost less than new ones, but the price depends on several factors, such as age and condition. Ask any PV professional, and they will assure you that it is not their intention to contribute to e-waste.
