

# International custom price of photovoltaic bracket

## Overview

---

The current average cost per ton for galvanizing PV brackets ranges between \$800-\$1,200 globally, but why does this 33% price variation exist?

. According to our (Global Info Research) latest study, the global Photovoltaic Bracket market size was valued at USD 812. 9 million in 2023 and is forecast to a readjusted size of USD 1396. The Photovoltaic Bracket is a special bracket. Photovoltaic Bracket by Application (Residential, Commercial), by Types (Roof Photovoltaic Bracket, Ground Photovoltaic Bracket), by North America (United States, Canada, Mexico), by South America (Brazil, Argentina, Rest of South America), by Europe (United Kingdom, Germany, France, Italy, Spain). While galvanized steel brackets dominate budget projects (¥36-¥60/m<sup>2</sup>), aluminum alloys are stealing the show in residential installations. A typical adjustable aluminum system like Xiangheng's 41" triangular frame now costs ¥123. 58 after platform discounts - that's 15% lighter than last-gen models. The price range of photovoltaic brackets can vary widely depending on the factors mentioned above.
