

# Iran s energy storage solar power station project under construction

## Overview

---

Iran is racing against time to complete the construction of a massive solar power plant in its central province of Isfahan, a project expected to supply electricity to nearly 2. Construction of Iran's Largest Fully Private Solar Power Plant by Arzesh Holding. Iran has set a new record in solar power generation, with output from its solar plants reaching 800 megawatts on August 26, according to the Renewable Energy and Energy Efficiency Organization (SATBA). Sijaroudi stated that renewable energy sources such.
