

Irish solar Energy Storage Project

Overview

NTR Plc secures €65M to power Ireland's green future with solar-plus-storage projects, boosting sustainable energy and meeting national renewable goals. The nation is driving towards an ambitious goal of generating 80% of its electricity from renewable sources by 2030. To achieve this, a significant expansion of solar capacity, potentially. International solar development platform ib vogt has successfully closed transactions totalling approximately €230 million in enterprise value across three utility-scale solar photovoltaic projects in Ireland with a combined capacity of 272 MWp. The portfolio, comprising the Gaskinstown (94.
