

# Is there an energy storage power station in new york usa

## Overview

---

Utility-scale battery energy storage developer Elevate Renewables and ArcLight Capital Partners will install a 15 MW/60 MWh distribution-level battery storage facility at the Arthur Kill Power Station in the borough of Staten Island (pictured above). With thousands of energy storage sites already in place across the State, this exciting technology is playing an important role in. This is a list of electricity-generating power stations in the U. state of New York, sorted by type and name. A more complete list can be found on the NYISO website in the planning data and reference docs section where an annual report call the Load and Capacity Data Report, or the "Gold Book" is.

TORONTO, Dec. 9, 2025 /PRNewswire/ - PowerBank Corporation (NASDAQ: SUUN) (Cboe CA: SUNN) (FSE: 103) (" PowerBank " or the " Company "), a leader in North American energy infrastructure development and asset ownership, is pleased to announce that it has executed a lease agreement on a 5 MW AC. A former power plant in New York City is getting a new lease on life, and that's great news for both local residents and the planet, according to Electrek. Plans were announced to transform the site of the old Arthur Kill Power Station on Staten Island into the city's largest battery storage. The 20 MW utility-scale battery energy storage facility will help accelerate the target of 6 GW of energy storage by 2030. Kyle Murray, NYPA Construction Engineer, walks the Northern New York battery storage project, with construction completed. The Willis substation is adjacent to the facility. When built, the facility will be able to hold up to 100 megawatts (MW) and power over tens of thousands of households.
