

# Lao Liang s view of the world s solar power generation

## Overview

---

ASEAN member Laos has plans to increase renewable energy in its power mix, notably solar power buildout. However, it continues to rely on hydropower and coal-fired power plants to generate electricity, complicating both its way forward and decarbonisation plans. Renewable power generation is slowly. Dak Cheung is the site of the Monsoon Wind Power Project, the largest of its kind in Southeast Asia. It is a remarkable spectacle; a feat of engineering and logistics on what they call "complex terrain" with an. EDL-Gen Solar Power Company Limited is a joint venture company which is 60% owned by EDL-Generation Public Company and the other 40% is owned by Patthana Energy Absolute Sole Co. EDL-Gen Solar Power Limited has strong desire: (1) to be a number one leading company in renewable energy in Lao. Lao PDR envisions becoming the "Battery of Southeast Asia" by exporting hydropower to neighboring countries through the regional power grid designed to reach ASEAN's goal of net-zero emissions. (KPL/VNA) The Lao Government has allowed Liankham Trading Sole Co. China Western Power Industrial, along with a Singapore-based construction.
