

# Liquid cooling energy storage project in Spain

## Overview

---

Highview Power, a global leader in long duration energy storage solutions, announced today it is developing up to 2 GWh of long duration, liquid air energy storage projects across Spain for an estimated investment of around \$1 billion. Pending approval, a total of €167. From GSL ENERGY's industry perspective, this program reflects how energy storage is shifting. The current market landscape in Spain for liquid cooling units tailored to energy storage systems is characterized by a moderate degree of concentration, with leading players commanding significant market share through strategic positioning and technological innovation. Established manufacturers.

## Liquid cooling energy storage project in Spain
