

Lithium battery power station in Cyprus

Overview

Cyprus has taken a step toward modernizing its energy infrastructure with the commissioning of a 3. Operated by the University of Cyprus, this is the country's largest battery project to date and the first of its kind at this scale. The energy regulator has approved a significant battery storage system totalling 120MW across three locations to enhance grid stability and security, marking a crucial step for the island's electricity infrastructure.

Lithium battery power station in Cyprus

[The Nicosia Electric Energy Storage Project: Powering Cyprus' Green](#)

Enter the Nicosia Electric Energy Storage Project - a game-changer that's turning heads in the energy sector. This EUR180 million initiative isn't just another battery farm; it's like giving the entire ...

[Cyprus Launches First Major Battery Energy Storage System](#)

Cyprus has commissioned its first major battery energy storage system (BESS). Discover the 50 MW project's partners, technical details, and impact on grid stability and renewables.

[Cyprus grid gets EUR55 million battery upgrade across Nicosia, Larnaca](#)

Cyprus will establish its first large-scale electricity storage infrastructure within the next 16 months, Energy Minister George Papanastasiou announced at the Green Agenda Cyprus Summit in ...

[Battery Energy Storage System in Cyprus 2025 - What You Must Know](#)

By installing a commercial battery energy storage system in Cyprus, hospitality businesses gain energy security, reduce operating costs, and enhance sustainability--an important ...

[Cyprus approves 120MW battery storage system](#)

The energy regulator has approved a significant battery storage system totalling 120MW across three locations to enhance grid stability and security, marking a crucial step for the island's ...

[Nicosia Lithium Battery Energy Storage Project: Powering Cyprus](#)

You know how Cyprus enjoys over 300 sunny days annually? Well, here's the thing - solar panels sit idle most nights while households still need electricity. The Nicosia lithium battery energy storage ...

[Residents alarmed as 40 MW battery station approved near homes in](#)

The Electrochemical Electricity Storage Station, designed to hold 40 MW with plans for potential expansion to 80 MW, will include 24 containers of lithium batteries just meters from homes. ...

[Cyprus switches on first significant battery system](#)

Cyprus has taken a step toward modernizing its energy infrastructure with the commissioning of a 3.3 MWh BESS as part of the Apollon PV Park. Operated by the University of ...

[Green light for one of first standalone battery investments in Cyprus](#)

The Electricity Authority of Cyprus plans to upgrade the nearby Psevdas high-voltage substation by 2029 to integrate the standalone battery system. Construction work is expected to last ...
