

London solar Panel Project

Overview

A scheme in London is delivering clean, affordable energy directly to residents in social housing via newly regulated solar microgrids. Rooftop panels have existed on housing estates such as Frampton Park in the borough of Hackney for some time, but they only feed into the grid. The Mayor of London, Sadiq Khan, is committed to increasing the amount of solar energy captured in London as part of his wider ambition for London to become a zero carbon city. However, a new. Designed by Populous in 2012 for the London Olympic Games and since transformed into the home for West Ham Football Club, we are proud to be helping London Stadium become one of the world's greenest sports and concert venues. The project will enable the Stadium to save more than 200 tonnes of. Custom-designed solar panel systems for UK homes and businesses. Lower your bills, increase your property value, and take control of your energy. Our systems are designed to suit your roof, usage, and future plans—delivered with clean installs and long-term support.
