

Major solar power generation project in France

Overview

France is continuing its ambitious push into renewable energy, installing an impressive 4.2 GW of new solar capacity in the first nine months of 2025. While this represents a robust expansion, the pace shows a. Solar power in France grew steadily in 2015, reaching a total photovoltaic capacity of 6.6 gigawatts by the end of the year, delivering 6. The projects include the Le Couret agrisolar project with a capacity of 147 MWp in the Haute-Vienne department, along with the Isle-sur-Marne solar. Recent data released by Enedis, France's electricity distribution network operator, shows that the country's grid added 4. Innovative solar panel trackers and a tailored. French renewable energy developer Neoen has secured seven solar and "agrisolar" projects totalling 164MWp in the latest round of tenders by the French Energy Regulation Commission.

Major solar power generation project in France

[Solar power generation in France](#)

This graph provides an annual and monthly overview of solar power generation in France. The evolution of solar photovoltaic generation is an important parameter in the energy transition, as it is a ...

[Largest solar power stations in France](#)

Get to know the projects' power generation capacities in MWp or MWAC, annual power output in GWh, state of location and exact location on the map, name of developer, year of connection to the electric ...

[France solar power: Impressive 4.2 GW Added in 2025](#)

By the end of September 2025, the sun-rich Nouvelle-Aquitaine region solidified its position as the national leader with 6.1 GW of installed solar capacity. It was followed closely by other ...

[France Solar Week: France's solar sector marks major milestones in ...](#)

France produced 19.5GW of solar power at peak on 19 July 2025, covering almost 40% of national electricity demand at that time. This record output highlights both the increasing scale of ...

[Top five solar PV plants in operation in France](#)

Listed below are the five largest active solar PV power plants by capacity in France, according to GlobalData's power plants database. GlobalData uses proprietary data and analytics to ...

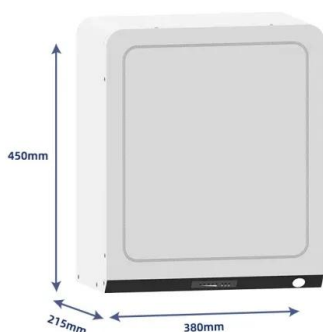

[TotalEnergies launches its largest Solar Power Plant in France](#)

Paris, November 29th, 2021 - TotalEnergies has launched its largest photovoltaic solar power plant in France, with a capacity of 55 megawatts (MW). The solar farm, located northeast of Gien (Loiret), ...

[Neoen Begins Construction Of Three Solar Projects In France](#)

Neoen has initiated construction of three new solar farms in France with a combined capacity of 230 MWp, all scheduled to become operational by 2028. The projects include the Le Couret agrisolar ...

[Solar power generation projects in France](#)

TotalEnergies has launched its largest photovoltaic solar power plant in France, with a capacity of 55 megawatts (MW).. The solar farm, located northeast of Gien (Loiret), comprises 126,000 photovoltaic ...

[France Installs 4.2 GW of Solar PV Capacity in First Three Quarters of](#)

Recent data released by Enedis, France's electricity distribution network operator, shows that the country's grid added 4.2 gigawatts (GW) of new solar photovoltaic (PV) capacity in the first ...

[Voltaia Begins Construction of 25.1 MW Solar Projects in Southern ...](#)

Voltaia has commenced construction on three new solar power plants in southern France, totaling a combined capacity of 25.1 megawatts. The first project, a 10.7 MW photovoltaic park, is being ...
