

Market price of solar panels per watt

Overview

As of 2025, the average solar panel installation cost per watt ranges from \$2. Data source: IRENA (2025); Nemet (2009); Farmer and Lafond (2016) - Learn more about this data Note: Costs are expressed in constant 2024 US\$ per watt. Global estimates are used before 2010; European market. Solar panels cost about \$21,816 on average when purchased with cash or \$26,004 when purchased with a loan for a 7. Our team of solar experts. Think of it as the price tag for solar power—it's the standard unit of measurement used to compare the cost of different solar panel systems. Federal, state, and local incentives can cut solar costs by 30-60%. 5 years, with up to \$90,000 in savings over 25 years. 50 and largely depends on the home's geographical area. NLR's PV cost benchmarking work uses a bottom-up.
