

# Payment for a 100kW photovoltaic integrated energy storage cabinet

## Overview

---

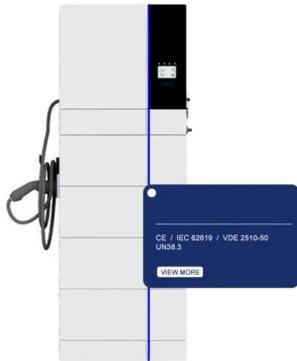

So, how much does a 100kW energy storage cabinet actually cost?

Well, if you're expecting a one-number answer, prepare for a plot twist. Prices swing between \$25,000 and \$70,000 —like comparing a budget sedan to a luxury EV. But why the wild range?

Let's break this down. Built with Tier 1 LFP battery cells (EVE), this system delivers safe, reliable, and long-lasting performance. Its Energy Cube 50kW-100kWh C&i ESS integrates photovoltaic inverters and a 100 kWh energy storage system. Equipped with a reliable Growatt inverter, it supports flexible battery options including rack-mount and stackable batteries.
