

# Photovoltaic Energy Storage Aikon Technology

## Overview

---

AIKO focuses on the R&D and manufacturing of core photovoltaic products and provides integrated “solar-storage-application” solutions. Its main offerings include high-efficiency solar cells, ABC (All Back Contact) modules, and diversified application scenarios tailored to. As a global leader in new energy technology, AIKO has been at the forefront of the photovoltaic industry for 16 years. "The Comet Generation 3 solar module w ainst inclement weather is further reinforced. This new feature counteracts the dangers created by prolonged shading,which an cause hot spots,cell degradation ge rate and minimal light-induced degradation.
