## Overview

---

The 2025 US solar PV system pricing report covers solar PV system costs and prices in the US across all market segments. It includes detailed component breakdowns for national average system costs across residential, commercial and utility-scale projects. NLR's PV cost benchmarking work uses a bottom-up. Each year, the U. Department of Energy (DOE) Solar Energy Technologies Office (SETO) and its national laboratory partners analyze cost data for U. These benchmarks help measure progress toward goals for reducing solar electricity costs. The Energy Commission's Solar Equipment Lists include equipment that meets established national safety and performance standards. Data source: IRENA (2025); Nemet (2009); Farmer and Lafond (2016) - Learn more about this data Note: Costs are expressed in constant 2024 US\$ per watt.
