

# Power outage solar container battery backup

## Overview

---

A solar battery backup is meant to store additional solar power that is produced during the daytime and supply power to your home when it needs it most. Whether it is an unscheduled power outage during the night or a scheduled outage, a solar battery backup system will give you peace. We tested and researched the best home battery and backup systems from brands like EcoFlow and Tesla to help you find the right fit to keep you safe during outages or reduce your reliance on grid energy. The system is now available for shipping.
