

# **Price quote for a 1MW photovoltaic energy storage container**

## Overview

---

The cost of a 1 MW battery storage system is influenced by a variety of factors, including battery technology, system size, and installation costs. While it's difficult to provide an exact price, industry estimates suggest a range of \$300 to \$600 per kWh. The price unit is each watt/hour, total price is calculated as:  $0.2 \text{ US\$} * 2000,000 \text{ Wh} = 400,000 \text{ US\$}$ . To discuss. Features of Sunway Energy Storage Container Energy Storage System1. High degree of system integration, integrated battery management system, PCS, temperature control system, fire control system, access control system, data monitoring system, AC and DC power distribution, lighting system, etc. Constructed primarily from corrosion-resistant steel, these containers protect sensitive solar components from environmental hazards. NLR analyzes the total costs associated with installing photovoltaic (PV) systems for residential rooftop, commercial rooftop, and utility-scale ground-mount systems.
