

Quotations from famous solar power generation manufacturers

Overview

Solar power is the last energy resource that isn't owned yet - nobody taxes the sun yet. We need to drive the cost of solar energy down to where it's competitive for bulk power generation. These quotes can inspire us to think positively about using renewable energy. From inventors to activists, their words can. We are proposing buildings that, like trees, are net energy exporters, produce more energy than they consume, accrue and store solar energy, and purify their own waste, water and release it slowly in a purer form. Here are ten great quotes about solar from politicians, activists and influencers around the world.
