

Renting a rooftop to generate solar power

Overview

Renting your roof for solar panels is an agreement where, as a property owner, you allow a company to install solar panels on your rooftop to generate renewable energy. In return, you receive an annual rental income without any need for an initial investment. Thousands of homeowners are discovering that when you lease solar panels through a trusted provider, you get the fastest path to energy savings without the financial burden of owning a solar system outright. If you have an underutilized roof, you could be missing out on a great opportunity to generate passive income, reduce your electricity bill, and. The first step to renting your rooftop for solar is finding an established, experienced solar developer to handle the project. So, if you do have some empty roof space going to waste, reach out to YSG Solar today and learn how much you could earn by renting your roof for solar. Solar developers who offer these rentals typically handle the installation, maintenance, and repair costs of the solar panels at no upfront cost to the property owner. Best Suitable for: Mid-sized Commercial Businesses, Property Owners Start making.
