Overview

The average price of small business electricity in the U. 15 cents per kilowatt-hour (kWh), based on the latest Energy Information Administration (EIA) data. Our partners do not direct our editorial content, though we may reference their products in our posts. This allows you to budget your operational expenses with greater confidence. Review your typical energy usage to determine the best fit, then call the number on your screen. With Price to Compare, you can easily compare energy plans built for your business in just a few clicks.
