

Solar power generation general agent scam

Overview

These scams start with an unexpected phone call, message on social, or even an in-person visit. Or they might try to sign you up for a “free” program to make your home more energy efficient with. While reputable companies can help you save money with clean or solar energy improvements, scammers offer more than they can deliver. As more families consider solar energy improvements, dishonest companies exploit the fine print in solar panel. Door-to-door energy scams typically involve someone visiting your home and pretending to be a representative from an energy provider, utility, or solar company. This deceitful practice can lead to severe consequences for homeowners, both financially and legally. One of the major risks of permitting fraud is. This content is based on victim and potential victim accounts. Government agencies and legitimate business names and phone numbers are often used by scam artists to take advantage of people. At the same time, federal and state regulators have received an increase in consumer complaints about a small number of unscrupulous solar companies. People complain that they were deceived about costs and savings, misled about.
