

Storage solar battery factory in Mongolia

Overview

A 500 MW / 2,000 MWh standalone BESS in Tongliao, Inner Mongolia, has begun commercial operation following a five-month construction period, reflecting China's accelerating rollout of large-scale storage to firm and integrate high penetrations of wind and solar generation. The signing happened on September 6 by first deputy governor of Ulaanbaatar, Manduul. This project is the first solar power generation project with battery energy storage system in Mongolia attached, which was awarded to the JGC Group in consortium with NGK Insulators (Japan) and MCS International (Mongolia) 2021 for the Ministry of Energy of Mongolia. On Octo, Prime Minister of Mongolia Oyun-Erdene Luvsannamsrai visited the Battery Storage Power. ULAN BATOR, Oct. 31 (Xinhua) -- The Asian Development Bank (ADB) said Friday that it has been engaged by the Mongolian government to provide transaction advisory services for the Stable Solar Energy in Mongolia Project.
