

Suspend energy storage projects

Overview

Over 20 GWh of planned energy storage cell capacity for 2028 have been cancelled so far this year, according to the Q2 2025 reports on energy storage supply, technology, policy and pricing from consultancy Clean Energy Associates (CEA). The project is from Terra-Gen, which also deployed the Valley Center Energy Storage project in Southern California. The Town of Ulster in New York (NY) has received a request from local officials of the neighbouring town of Hurley to temporarily suspend the permitting process of a. Q2 reports from Clean Energy Associates highlight that while many American ESS manufacturing projects are getting cancelled or delayed, the appetite for domestic manufacturing is growing as costs fall. The full list of canceled awards appears below. The projects getting the axe. The Energy Department's cancellation of more than 300 funding awards slammed the brakes on efforts to reduce carbon emissions, air and water pollution, and strengthen electrical grids. The cancellations of nearly \$8 billion in funding were announced on Wednesday, the first day of a federal. Kore Power's \$1.25 billion facility would have expanded commercial battery cell production and brought 3,000 jobs to Buckeye, Arizona. Please let us know if you have feedback. Located on privately owned land zoned for energy, the project can store electricity for 12 hours and generate 1,200 megawatts of carbon-free electricity, enough to power about 500,000 homes in the Pacific Northwest.
