

Swiss new energy storage settled in the enterprise

Overview

Energy Vault has entered the Swiss market this week, announcing multiple battery energy storage systems (BESS) projects and deployments with new partners in the region, while also launching a new product for the commercial and industrial (C&I) sector called FlexGrid, which is. Energy Vault has entered the Swiss market this week, announcing multiple battery energy storage systems (BESS) projects and deployments with new partners in the region, while also launching a new product for the commercial and industrial (C&I) sector called FlexGrid, which is. Switzerland's latest battery energy storage system (BESS) entrant has hit the ground running, with two 2 MW projects with Schindler and Energie Wettingen either live or underway. The companies inaugurated the newly expanded project last week in a ceremony last week (24 May), which adds 8MW. The Swiss electricity grid is already undergoing the biggest transformation in its history. Decarbonisation, decentralisation and digitalisation are changing everything: fossil fuels are declining, renewable energies are taking over, and heat pumps and electromobility are driving up electricity. SwissSTES aims to reduce Switzerland's dependency on fossil fuels by pioneering seasonal thermal energy storage (STES) to become a net-zero carbon society. An interdisciplinary consortium develops and assesses novel STES technologies and proposes a systemic STES action and implementation plan.

Swiss new energy storage settled in the enterprise

[AlphaESS Launches Alpha Energy Swiss SA, Strengthening European Energy](#)

AlphaESS announces a strategic partnership with Stucky International and Voltify Systems to establish Alpha Energy Swiss SA, advancing smart battery storage solutions across ...

[Energy Vault enters Swiss market, announces new FlexGrid C& I...](#)

Energy Vault says it fully installed, commissioned, and Swissgrid-qualified the system in less than four weeks, and was delivered at the beginning of October.

[Large-scale battery for Switzerland: 65 megawatt hours of capacity](#)

We're excited to take an important step in Switzerland's energy transition together with Primeo Energie. In Kappel, in the canton of Solothurn, one of the largest battery storage systems in Switzerland is ...

[SWISS NEW ENERGY STORAGE INDUSTRY](#)

Investors can gain a Swiss residence permit by opting for a lump-sum tax arrangement or by investing in a Swiss business, opening doors to work, business, and long-term settlement in a ...

[Swissgrid and battery storage: solutions for a stable grid](#)

Battery storage systems are crucial for the energy transition. Find out how Swissgrid is driving forward their integration into the grid.

About , Swissstes

SwissSTES aims to reduce Switzerland's dependency on fossil fuels by pioneering seasonal thermal energy storage (STES) to become a net-zero carbon society. An interdisciplinary consortium ...

[AlphaESS Launches Alpha Energy Swiss SA](#)

AlphaESS announces a strategic partnership with Stucky International and Voltify Systems to establish Alpha Energy Swiss SA, ...

Application scenarios of energy storage battery products

[Energy Vault deployed first energy storage installation in Switzerland](#)

At Schindler Group's global headquarters in Ebikon (Canton of Lucerne), Energy Vault has deployed an energy storage system which is operating and qualified by Swissgrid. Energy Vault ...

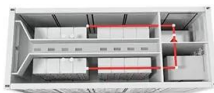

[Switzerland's EUR2 Billion Energy Storage Project: Powering the Future](#)

Swiss engineers are converting excess summer solar into hydrogen stored in repurposed natural gas caverns. Come winter, this becomes heating fuel - solving the seasonal mismatch that ...

[Energy Vault builds energy storage systems for Schindler and Energie](#)

(CONNECT) With the launch of its high-tech energy storage device FlexGrid, Energy Vault has announced its official entry into the Swiss market. FlexGrid is a product for industrial, ...

[Switzerland: EWS and MW Storage expand battery unit to 28MW](#)

Utility EWS AG and developer MW Storage have completed the expansion of a battery energy storage system (BESS) project in Switzerland from 20MW to 28MW, making it the country's ...
