

Syria solar Panel Power Generation Project

Overview

In July 2025, the Energy Ministry signed a memorandum of understanding (MoU) with US-based 20Solar Energy to develop 200 MW of solar PV capacity, including 100 MW of conventional solar and 100 MW of solar-plus-storage projects (see Syria Seeks Solar Energy; Ropes In US Company For. In July 2025, the Energy Ministry signed a memorandum of understanding (MoU) with US-based 20Solar Energy to develop 200 MW of solar PV capacity, including 100 MW of conventional solar and 100 MW of solar-plus-storage projects (see Syria Seeks Solar Energy; Ropes In US Company For. The Syrian government has roped in STE under a contract for a 100 MW solar PV project to accelerate renewable energy expansion. (Photo Credit: Public Establishment for Transmission and Distribution of Electricity) The Government of Syria has announced a 100 MW solar power generation project in the. Syria is moving forward with the construction of a 300 MW solar power plant in collaboration with a UAE-based company, signaling a significant advancement in its renewable energy ambitions. This project forms part of a larger initiative aimed at revitalizing Syria's energy infrastructure, which has. An aerial view shows solar panels installed on building rooftops in Damascus, Syria, Monday, J. [Photo: Ghaith Alsayed/AP Photo] Abdulrazak al-Jenan swept the dust off his solar panel on his apartment roof overlooking Damascus. Syria has taken its most decisive step yet toward rebuilding its war-battered power system with clean energy. The number of hours of sun a year varies from 2,820 to 3,270. 5 kilowatt-hours per square meter daily, Syria holds immense potential to become a regional leader in renewable energy.
