

# Unit price of grid-connected energy storage cabinet for island use

## Overview

---

The cost of an energy storage grid cabinet can vary greatly, influenced by a multitude of factors. The price range generally falls between \$10,000 and \$100,000, depending on specifications and capacity. Higher initial investments may be offset by long-term savings on energy. The 2020 Cost and Performance Assessment provided installed costs for six energy storage technologies: lithium-ion (Li-ion) batteries, lead-acid batteries, vanadium redox flow batteries, pumped storage hydro, compressed-air energy storage, and hydrogen energy storage.
